PROFESSIONAL SUMMARY

Cloud-Native Backend & Full-Stack Engineer with over 2 years of experience designing and deploying highly scalable web systems. Specializing in serverless architecture utilizing AWS (CDK, Lambda, DynamoDB) and modern frontend frameworks (Nuxt.js/Vue.js). Proven track record of owning the end-to-end development lifecycle for complex institutional applications, from student assessment portals to integrated financial billing systems. A highly communicative developer with a strong foundation in digital marketing and customer service, eager to bring a holistic, user-centric approach to a global engineering team.

TECHNICAL SKILLS

- Cloud & Backend Infrastructure: AWS Serverless Architecture (CDK, Lambda, DynamoDB, Cognito, S3), Node.js, RESTful APIs
- Frontend Development: TypeScript, JavaScript, Vue.js, Nuxt.js, HTML5, CSS3
- CMS & Digital Marketing: WordPress, Divi Theme, Google Ads, SEO, Adobe Creative Suite (Premiere Pro, Photoshop, Illustrator)
- Languages: Indonesian (Native), English (Professional Working Proficiency - IELTS Band 6.0)

PROFESSIONAL EXPERIENCE

Babussalam As-Sunnah | Depok, Indonesia

Web Developer | Mar 2024 – Present

- Engineer end-to-end full-stack web applications for institutional management, completely digitizing workflows for student assessments, attendance tracking, and admissions.
- Architect and provision scalable, cloud-native serverless backends using AWS (CDK, Lambda, DynamoDB, Cognito), ensuring high availability and secure user authentication.
- Develop complex administrative modules featuring automated notifications, secure transaction reporting, and specialized logistics (such as integrated laundry billing systems) using Nuxt.js and Vue.js.
- Design and deploy customized, high-converting institutional profiles using WordPress and Divi.
- Key Projects: Market Babussalam (POS System), Sistem Ma'had, Admission Portal, Admin

Student Registration Portal.

PT DEVAVRATA SINERGI INDONESIA | Remote

Freelance Full-Stack Developer | Aug 2023 – Jan 2024

- Built and deployed responsive, high-performance company profile websites tailored to client business requirements.
- Utilized headless CMS architectures and Nuxt.js to deliver flexible, fast-loading digital solutions for diverse business sectors.
- Key Projects: Straits Laundry commercial website, Devavrata Sinergi Indonesia corporate portal.

BPJS Ketenagakerjaan | Depok, Indonesia

Customer Service Intern | Jun 2023 – Jul 2023

- Facilitated the disbursement of pension funds, directly assisting clients at the Depok branch office.
- Honed high-level communication, de-escalation, and problem-solving skills, gaining valuable experience in translating complex administrative processes into user-friendly guidance.

Babussalam As-Sunnah | Depok, Indonesia

IT Instructor (Extracurricular) | Jul 2022 – Present

- Mentor students in digital literacy, teaching the foundational building blocks of web development (HTML/CSS).
- Conduct hands-on technical sessions covering the Microsoft Office Suite, preparing students for modern digital workplaces.

Babussalam As-Sunnah | Depok, Indonesia

Digital Media & Marketing Specialist (Intern) | Jul 2021 – Sep 2021

- Managed end-to-end digital media operations, producing high-quality graphic and video content utilizing the Adobe Creative Suite.
- Administered the institution's official social media presence (Instagram, YouTube) and executed targeted Google Ads campaigns to drive institutional enrollment and engagement.

EDUCATION

Asia e University (AeU) | Malaysia | GPA: 3.50 / 4.00

Bachelor of Information and Communication Technology (ICT) | Sep 2021 – Sep 2025

- Completed a rigorous international curriculum providing the theoretical and technical foundation required to architect modern cloud-native systems.
